

OverDrive Media Console App on iPhone, iPad or iPod Touch

The following steps show you how to install and use the iOS (version 4.0 or newer) OverDrive Media Console App on your Apple product.

Step A. Installing the OverDrive Media Console App

1. Go to the App Store on your iPhone/iPad/iPod Touch and search and select **OverDrive Media Console**
2. Touch the **Free** button on the right side and it will change to **Install**
3. Touch **Install**. You will be asked for your iTunes password. After it is entered, the App will install. Open **OverDrive Media Console**.
4. Touch **Get Books +** in the top right. Touch **Settings** button at bottom. Touch **Authorize with Adobe ID** button.

Step B. How to Download to your PC

This device has its own software called **Reader**. It does not use Adobe Digital Editions. Visit <http://ebookstore.sony.com/download> to get Sony Reader software.

1. Download the eBook to your hard drive
2. Connect your Sony Reader Daily to your computer using a USB cord.
3. An icon will appear in a window on the device that will install **Reader**
4. Run this installer and when it is down, open the program
5. The window will pop up and show what is in the **Library**. Your EPUB file will be here.

Step C. How to Transfer from Your Computer to Your Nook

1. Click Library
2. Click List View
3. Left click and drag the book from the right side to the left panel showing your Sony Reader
4. Click the Safely Remove Device option found in the lower right corner
5. After the Safe to Remove Hardware message displays, unplug your Reader from your computer

Step D. How to Begin Reading on Your Nook

1. When the eBook has been downloaded and the device disconnected from the computer, the eBook will be on the **Home** screen
2. Press the **icon** of the eBook to start reading!

Librarians at the Help Desk are happy to assist you in getting started borrowing eBooks. We are not experts but will troubleshoot with you!
